Databases: SQLite

PROJECTS

Emoji Game (svineethkumar.ccbp.tech)

Developed responsive Emoji memory game where users can win it by clicking unique emoji each time till all displayed emojis are clicked. All emojis positions will be randomized after each click.

- List of Emojis is displayed by using React components. Updated different game states such as emojis list, winning state and losing state by using game state variable and conditional rendering.

Technologies used: React JS, CSS

Nxt Trendz (ECommerce Clone - Amazon, Flipkart) (vineethnxtclone.ccbp.tech)

Implemented Nxt Trendz application which is a clone for ECommerce applications like Amazon, Flipkart where users can login and can see list of products with search, filters, sort by, etc..

- Authenticating and authorizing users by taking username, password and doing login POST HTTP API Call and implementing filters by sending them as query parameters to product api calls.

Technologies used: React JS, JS, REST API Calls, Local Storage, JWT Token, Authorization, Authentication.
